

Haemophilia Academy and beyond: Building opportunities to improve haemophilia care

Stacy E. Croteau, MD, MMS

Attending Physician, Boston Children's Hospital

Associate Director, Boston Hemophilia Center

Assistant Professor of Pediatrics, Harvard Medical School

July 12, 2017

Proud member of the Class of 2014

Prelude to my Haemophilia Academy experience

- Undergraduate studies in Neuroscience, Brown University 2003
- Medical Degree and Master of Medical Science, Brown Medical School 2007

- Pediatric residency and Chief Resident, Boston Combined Residency Program, 2011
- Pediatric Hematology-Oncology Fellowship, Boston Children's/Dana-Farber Program, 2014

Early interest in hemostasis

- Vascular Anomalies, platelet and coagulation derangements

- Immersive training in drug development and early phase clinical trial design and execution

The Haemophilia Academy experience

- Awarded place on the training course: letter from Professor Ludlam

Edinburgh, Scotland

- Intensive instruction in both foundational hemophilia knowledge and state-of-the-art care by international hemophilia experts
- Case-based group discussions highlighting variation in clinical practices and resources
- Meeting colleagues from around the world with a shared interest in hemostasis
- Emerging project ideas and collaborations

Lasting impacts of the academy

- Academic Progress and Clinical Research

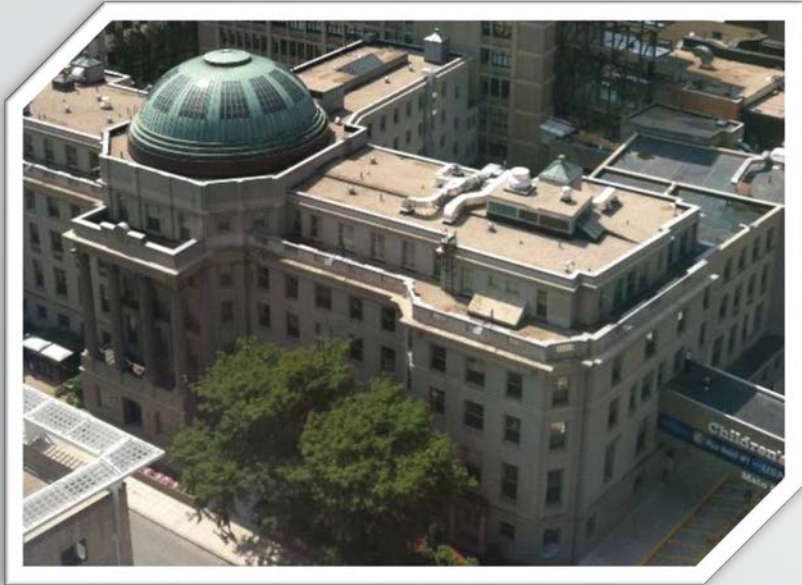

- Career development: ASH Clinical Research Training Institute (CRTI)

- Chair, Transition Working Group
- Member, Quality Improvement Working Group
- Grant reviewer

My current involvement in the Hemophilia Community

- Director of the Hemophilia/VWD program, Boston Children's
- Lead QI projects (transition) and Programmatic Development (Young women with bleeding clinic)

- Community education and advocacy
 - Speaker at educational events for Boston Hemophilia Center, New England and Florida Hemophilia Associations
 - Washington Days advocacy efforts
 - Patient and Provider educational materials and webinars

My Haemophilia Academy Network

- Build foundation in state-of-the-art hemophilia care
- Opportunities for hypothesis generation and collaboration
- Create international network of colleagues and mentors
